Lo, et al. v. County of Siskiyou, et al.

Page 4 of 41

115 Supervisor Haup...: ... which I read and [inaudible 00:08:49].

116 Speaker 2: Correct, yeah.

117 Speaker 1: And then we did have, um, various signers, uh, different, um, uh, people that

118 sent in basically the same email [00:09:00] that have some concerns about the

119 groundwater, uh, ordinances and the 100-gallon, uh, limit for groundwater. I've

120 got several names here I can, I can read those off if you'd like. Um, but they

121 were all basically the same, you know, repeat of the same email a- address, uh,

122 email letter.

123 [Gal Xing Tao 00:09:17], [Helcubang 00:09:19], [Wuo Zhong 00:09:20], [Yir Lore

124 00:09:22], [Pon Hou Cheng 00:09:23], [Pun Cheng 00:09:25]. [Pey Her 00:09:26],

125 [Xi Lor 00:09:27], [Rebecca Hir 00:09:28], Jose [00:09:30] Magno, Eugene Vang,

126 [Mei Li Zhong 00:09:32], Natalie Marino, [Julian Yaravata 00:09:35], [Cara Simia

127 Tao 00:09:35], [Shao Yang 00:09:35], and [Ling Cho 00:09:42]. Those are all

128 emails that we received as well related to groundwater ordinances.

129 Supervisor Haup...: And do we have any correspondence from, uh, correspondence reports or

130 arguments evidence by other county [00:10:00] departments or public

131 agencies?

132 Speaker 1: There was one more real quick, I'm sorry a [Janet Reimer 00:10:04] or Reimer.

133 We had an email from this morning as well. Thank you.

134 Supervisor Haup...: Anything from other agencies or other county departments? Okay. Uh, any

135 performance arguments? I see, none. Performance arguments. I see, none. I'm

136 gonna go to public comments. Uh, [00:10:30] so I have a number of cards here.

137 Let's say for title, for 10B and A and the one person says, uh, item 10B, Susan

138 Wallace, and then I'll go online after I get through this.

139 Susan Wallace: Good morning.

140 Supervisor Haup...: And I don't know. Um, excuse me. Uh, so counsel, [00:11:00] if you wish to

141 speak on both, uh, items, 10A and 10B come back up there and the next time as

142 well.

143 Speaker 2: That's correct. They'd be the clean short again.

144 Supervisor Haup...: Okay, all right. Thank you. Yeah. Good morning.

145 Susan Wallace: (laughs). Good morning. Susan Wallace from [inaudible]. It's funny who just

146 approved of this [inaudible 00:11:20] names there that we're dealing with in our

147 subdivision as well for illegal marijuana grow. They are also taking water from

148 other lots and feeding their grows. Um, [00:11:30] I'm hearing trouble with, with

149 the drugs. We just talked about it here, too. These people are here illegally

150 growing their pot manufacturing whatever products they want, sending it out of

151 state.

Lo, et al. v. County of Siskiyou, et al.

Page 5 of 41

152 Most of these people even the ones out here do not live here. They come up
153 here invade our county on an annual basis to grow their crops, and they don't
154 care what they do with our property and they have destroyed it. It has been
155 [inaudible 00:11:58] a lot, next time there was a grow. [00:12:00] It took us two
156 years to clean that up and get the devastating waste including feces off of that
157 property. And that's disgusting.

158 So I am not happy about these people trying to claim that we're taking their
159 water away from them when they come up and to destroy our property and
160 make areas unlivable. And they use cast here we take a trip out to [Shasta Vista
161 00:12:22], and out to the Big Springs area, we need to take a drive through and
162 see what's going on out there.

163 Yes, we have fire, and yes, the fire [00:12:30] gone away from the feds but we
164 all know who live here. The feds don't put fires out, the CalFire puts fires out
165 until it gets to CalFire area that fires that burn. So though now it's been done.
166 They're claiming that has been discriminatory. Well, I'm tired of being
167 discriminated against myself. I want justice. I want people who breaks the law,
168 damage our property, devastate our land to pay for it. And I think that they
169 should be made to pay for it.

170 So I'm not, I'm not a happy [00:13:00] camper about all this and I am proud as
171 punch with you guys sticking to the water business. They have no business
172 taking water from one place and transporting it elsewhere. We can't do it on
173 our campground. We can't do it on our private property. I cannot feed water to
174 another lot without having some kind of provision made even though I have an
175 agricultural well on one piece. So that water belongs to the people who actually
176 build a house put in a septic system and set up slip trenches [00:13:30] and
177 actually live and produce on the property itself with a house of septic and well
178 it's been approved by the county. I have to abide by those rules, these people
179 don't think they have to.

180 And they're up here in our faces and yelling out here that they want water.
181 Damn it. Dr- drill well, build a house, live like normal people instead of trashing
182 our area. And that's about where I'm at. I've had it with it, I'm not happy with
183 what's going on here. I like what they call our sheriff. He's doing a good
184 [00:14:00] job, and he's after it and they don't want to abide by the law. That's
185 their choice, their choice.

186 Try abiding by the law and following it and be good citizens, you came here and
187 lied to us in the first place about being good citizens. Oh, we wanna be good
188 citizens, we fought for you. No, you didn't. You were brought over to this county

Lo, et al. v. County of Siskiyou, et al.

Page 6 of 41

189 and to this country to take advantage of what we offered here and that's not
190 what they're doing. They want to do their drugs.

191 Speaker 1: Time.

192 Susan Wallace: Thank you.

193 Supervisor Haup...: Thank you. Our next speaker [00:14:30] is [Anne Lowell 00:14:31].

194 Anne Lowell: I'm also going to encourage you to pass resolutions that have been implied, um,
195 but I wanna tell you that I'm a little offended sometimes when we have some
196 speakers come up and say how they fought from the country. And they've done
197 this and so I'm going to tell you a little bit about myself.

198 My name is Anne Lowell. I live out [inaudible 00:14:57]. I'm on the board at Care
199 [00:15:00] CE. And since the fire, we've been seeing a lot of activity and more
200 and more water tax. But I want to tell you that my family also fought for this
201 country. I am only the fourth generation of Americans here, well, actually third.
202 Um, my parents and were here because my great grandparents fled Italy, um,
203 because of Mussolini.

204 So then where did they come? I [00:15:30] spent the first five years of my life in
205 the labor camp called Hilt California. And so I want you to know that I feel so
206 offended sometimes when I hear that because it's not just about that that
207 particular, the homeowners that came here. A lot of us are from here, my
208 family, my kids are only the fifth generation here in America. So sometimes we
209 forget [00:16:00] that because the color of my skin, where we came from, and
210 again, uh, my rights are being violated. We came here again after my parents
211 moved us down to the Sacramento Valley back up here to live where I was born.
212 And we have a house, a septic and a well, and all my parents went through the
213 correct procedures, my ancestors, my great grandparents and grandparents and
214 [00:16:30] my dad did the exact same thing. They follow the rules, and that's
215 what we're asking. And it's sad that we have to make these laws in order to
216 enforce our rules. But sometimes, you know, that's what we have to do. When
217 we... When my husband and I first moved up here 13 years ago, it was much
218 more lax, and everybody abided by the rules. We don't see that anymore.

219 So yes, it's horrible that now we have to enforce [00:17:00] it and move it on.

220 Now, as a board member what I'm seeing is really a horrible since the fire, in the
221 lava fire, more and more water trucks are now on Care CE county roads. And so
222 I'm hoping that eventually you extend some of the, uh, county roads there. But
223 I'm also seeing, um, even in my own neighborhood, hoses, trenches, feeding
224 their grows all the way down roads, [00:17:30] um, with hoses and things like
225 that to fill water tanks. Please just hold your, your... [inaudible 00:17:38]. Thank
226 you.

1513 we'll see how the rest of the summer plays out. And I think with that, I think
1514 we'll go to closed session.
